# 100 Remodeler's Choice

Hot Products 2001

**4. Dryerbox.** The Dryerbox from In-O-Vate Technologies is a metal receptacle that installs within the wall and facilitates the collection and housing of the flex hose. Made of 22-gauge aluminized steel, it exceeds all code requirements and allows the dryer to fit flat against the wall. By cutting out zigzags in the exhaust hose, the Dryerbox also provides energy savings by cutting dryer run times.
