We now carry  
The Dryerbox!

**NOTICE**

**the dryerbox®**

More info and specs at [www.dryerbox.com](http://www.dryerbox.com)

- Applauded by Architects & Mechanical Inspectors
- Dryerbox® doubles as a gas connection receptacle
- Meets the requirements as a “clean-out” for Mech Code
- Heavy 22 gauge aluminized steel molded construction

Model 425 shown painted

**the dryerbox®**

Over 750,000 installed,  
remind your salesperson  
to bring one by.

- Dryer can be installed right up against the wall
- Prevents flex transition hose from getting “squished”
- Lint build-up is minimized and efficiency is increased
- HVAC Contractor gains a 5 foot credit in duct run length
- Laundry room appears larger to prospects
- Reduces the fire hazard

An innovative, space saving  
“smart idea” that installs in the  
wall behind the dryer appliance.

**1 Hour F Rating**  
wood or metal frame
